PROFILE SUMMARY

Motivated MERN Stack Developer with hands-on experience building scalable and efficient web applications. Skilled in modern JavaScript frameworks and backend API development, with a strong focus on clean code, performance, and continuous learning.

WORK EXPERIENCE

MERN Stack Developer (Training + Projects) — PRAXINFO, Ahmedabad

Jan 2025 - Present

- Built responsive front-end UI components using React.js, Tailwind CSS & JavaScript to improve user experience and code reusability.
- Developed backend REST APIs using Node.js & Express.js for CRUD and business logic handling.
- Implemented JWT-based authentication, secure session handling and protected routes.
- Integrated Stripe payment gateway in test mode for subscription based flow and validated webhook event handling.
- Worked on admin panel modules including filtering, pagination and data visibility enhancements.
- Designed MongoDB schemas, optimized queries and assisted API integration with frontend.
- Collaborated using Git & GitHub for version control.

EDUCATION

K. S. School of Business Management & Information Technology

Master of Science in Computer Applications & Information Technology (M.Sc. CA & IT)

July 2023 – April 2025 | GPA: 3.95 / 5

Bachelor of Science in Computer Applications & Information Technology (B.Sc. CA & IT)

July 2020 – April 2023 | GPA: 4.01 / 5

PROJECTS

Quotation Maker Web Application — Next.js

- Developed a dynamic and responsive quotation generation interface using Next.js (App Router) and TypeScript.
- Consumed existing REST APIs, implemented reusable UI components, data validation for tax/discount fields, and improved user experience with optimized state handling and clean design structure.

Tech: Next.js, TypeScript, Tailwind CSS, REST API

Admin Panel with Filtering & Pagination — React, Node.js, MongoDB

- Built a modular admin dashboard for managing product/category/user data with server-side filtering and pagination.
- Implemented protected routes using JWT authentication, created optimized API endpoints, and improved performance in data handling between frontend and backend.

Tech: React.js, Node.js, Express.js, MongoDB, JWT Auth

SKILLS

Frontend: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript (ES6+), React.js, Next.js, TypeScript

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, Prisma, Drizzle ORM

Other: REST APIs, Responsive UI

Deployment: Vercel, Netlify, Render

Integrations: Stripe (Test Mode), Webhooks Basics
